## WORK EXPERIENCE

### Software Support Technician - Open Dental Software - Salem, OR

August 2025 - Present

- Resolves clinical workflow issues, system errors, and connectivity problems across core application features.
- Assists with software configuration, updates, service enrollment, and account-related requests.
- Consistently meeting performance benchmarks by following internal documentation, workflows, and support standards.

### Software Engineer Intern - Zeek Interactive Inc. - St. George, UT

May 2024 - September 2024

- Developed and maintained Laravel and FilamentPHP applications.
- Collaborated with a team of engineers to deliver scalable software.
- Built and deployed RESTful APIs, enabling seamless integrations with third-party services.

### QA Engineer Intern - Zeek Interactive Inc. - Huntington Beach, CA

May 2023 - September 2023

- Conducted automated and manual software testing.
- Conducted cross-browser compatibility testing, ensuring performance across multiple platforms.
- Identified and documented critical bugs, collaborating with developers to implement fixes.

---

## PROJECTS

### Lavender - Shift Work Sleep Disorder App

- Project Manager leading a team of five developers, overseeing development cycles and timelines.
- Integrated Google Firebase services (Authentication, Firestore, Cloud Functions) with a React frontend, automating sleep scheduling for shift workers.
- Partnered with a sleep psychology expert to ensure scheduling recommendations align with research-backed methodologies.

### Portfolio Website - React/Next.js App

- Developed a clean, responsive portfolio website using modern web tools.
- Strengthened fundamentals in component structure and page organization.
- Refined the site over time based on self-review and external feedback.

---
